***Response to Arguments***

1. Applicant's arguments with respect to claims 7-18 have been considered but are moot in view of the new ground(s) of rejection.
2. Applicant argues that the amendment to independent claims 7 and 13 corrects the previous 112, first paragraph rejection. However, Applicant amendments do not alleviate the previous 112, first paragraph rejection.
3. Examiner has pointed out in office action that follows, the still pre-existing 112, first paragraph rejection along with 112, second paragraph, lack of antecedent basis rejection. In addition, Examiner has performed and additional search performed another search.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:  
  
The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
5. Claims 7-18 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Applicant has amended claims 7-18, wherein independent claims 7 and 13, in line 8-10 and line 7-9 respectively, include the limitation of "**formatted non-control data**," which is not discussed in the specification.

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

7. **Claims 7-18 are** rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
8. Claim 7 and 13 recites the limitation "**the formatted non-control data**" in lines 8 & 10 and 7 & 9 respectively. There is insufficient antecedent basis for this limitation in the claim. Claims 2-12 and 14-18 depend on claim 7 and 13, therefore, claims 2-12 and 14-18 as well.

### **Conclusion**

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 2619

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
